

WESTERLY, RHODE ISLAND — May 2016 Darlington Fabrics partners with Waste Management to achieve Zero Waste to Landfill status.

Darlington produces 602 tons of waste yearly; 183.7 tons (33.2%) are recycled. The remaining 416 tons (66.8%) of waste that were sent to landfill are now diverted to a waste-to-energy plant.

Working together each month Darlington and Waste Management are saving*:

- 13,523 kW-hrs. of electricity
Enough to power 1 home for a full year
- 340 gallons of oil
Enough energy to heat and cool 2 homes for a full year
- 79 gallons of gasoline
Enough gasoline to drive 2,216 miles
- 40 mature trees
Enough to produce 490,375 sheets of newspaper
- 23,087 gallons of water
Enough to meet the fresh water needs of 1,232 people for a month
- 12 cubic yards of landfill airspace
Enough airspace to meet the disposal needs of a community of 177 people

"At Darlington Fabrics, we are laser focused on bringing the most innovative warp knit products to the market coupled with the highest environmental standards possible."

Steve Perry, Senior Vice President – Darlington Fabrics

Darlington Fabrics, <http://www.darlingtonfabrics.com>, a warp knit manufacturer, is a division of The Moore Company, founded in 1909 and still focused on innovation. Sister divisions include The George C. Moore Company, Fulflex, Moeller Marine and Moeller Plastics.

The Moore Company manufactures products in the United States. International manufacturing facilities complement domestic capabilities, while serving regional markets around the globe. For more information contact: Steven Perry 401-315-6346 or sperry@dfabrics.com

*Report Period: June 2015. The recycling and waste data used in this report is based on actual customer data, historic WM studies, and EPA averages.
